

City of Wichita Campaign Goals

I Integrity

C Compassion

T Trust

Integrity – Checks and balances at City Hall, evaluation of development deals, and ethics oversight. I will hold staff accountable, including the City Manager and Chief of Police. I have a financial background and Auditor experience that give me an effective voice. I plan to make sure projects are evaluated at the start, during, and end of the contract. City Hall is a mess and I need your help in cleaning it up.

Compassion – We have to realign priorities, putting people ahead of special interest. Economic development is important, but it has to be smart and ‘make sense’. Century II is a beloved icon. The Save Century II movement rallied 17,265 citizens, giving the public a voice in its fate. Public safety must be refocused on the most pressing needs.

Trust – I will restore trust in City government which has eroded these past years by insider handouts, poor judgment, and backroom deals. All Advisory Boards should be televised with minutes posted timely. The public must be informed when public safety, public finance and government services fall short.

-----We deserve better. Help me make Wichita better-----

-----Public interests over special interests-----

----I am prepared for this job with years of financial experience-----

-----A vote for Celeste Racette is a vote for Wichita-----
